Portfolio: <https://plazaivan.vercel.app/>

Full Stack Developer with a product-oriented mindset and experience building modern web applications using **React, JavaScript, and Astro**. Expert at bridging the gap between business requirements and robust technical solutions, with a strong focus on **performance and scalability**. Currently developing production-ready projects, including landing pages and portfolios for small businesses, prioritizing responsive design and high-speed delivery. Seeking a **Junior+** position to contribute technical value and continue growing within a professional development team.

## TECHNOLOGIES

### Frontend

React · Astro · Tailwind CSS · JavaScript (ES6+) · HTML5 · CSS3

### Backend / APIs

Node.js · Express · Python · FastAPI · AWS S3

### Databases

PostgreSQL · SQL Server · SQLite

### Tools

Git · GitHub · Docker

## PROFESSIONAL EXPERIENCE

### Backend / Frontend Developer – Hunttek

July 2023 – August 2024 | Mexico City (Remote)

- **Spearheaded** the development of core modules for a production web platform focused on connecting job seekers with companies.
- **Engineered** and integrated scalable file management systems using **AWS S3**, ensuring high availability and security for user documents.
- **Collaborated** on user flow design and optimized API consumption from the frontend.
- **Architected** and maintained high-performance REST APIs with **FastAPI**, reducing response times and ensuring seamless data flow.
- Executed data modeling in PostgreSQL, managed migrations with **Alembic**, and maintained **Dockerized** environments.
- Followed collaborative workflows via GitHub, including code reviews and Pull Request management.

## **EDUCATION**

- **Technical Degree in Software Development:** Universidad Argentina de la Empresa (UADE), Buenos Aires. 2024 – Present (Expected graduation: Dec 2026).
- **Full Stack Web Developer:** SoyHenry Bootcamp (800 hours of intensive theoretical and practical training). 2023.
- **Systems Engineering (2nd Year completed):** Universidad de los Andes, Mérida - Venezuela. 2017.

## **ADDITIONAL EDUCATION**

- Python – CoderHouse (2022)
- Manual QA Testing – CoderHouse (2022)

## **PROJECTS**

### ***Personal Portfolio Website***

- Developed a professional portfolio using **Astro, Tailwind CSS, and JSON**.
- Responsive design with a strong focus on **performance and SEO**.
- Showcases projects, experience, and technical profile.

### ***Portfolio Website Templates – Astro***

- Designed and developed multiple reusable portfolio templates for different professional profiles ([Developer](#), [Photographer](#), [Accountant](#)).
- Component-based architecture focused on scalability and performance.
- Built for individuals and small businesses.

### ***PI Food – Single Page Application (SPA)*** Henry Bootcamp | May 2023 – June 2023

- Developed a full-featured SPA using **React and Redux**.
- Implemented complex search, filtering, and ordering logic with controlled forms.
- Integrated a custom backend built with **Node.js and Express**.

## **LANGUAGES**

- **Spanish:** Native
- **English:** Basic/Professional (A2) – Currently improving my professional English to support global collaboration.
